Cloud: AWS fundamentals — Member, AWS Student Builder Group, CHARUSAT

EXPERIENCE

Media Team Member — AWS Student Builder Group, CHARUSAT *Oct 2026 – Present*

- Collaborating with peers on cloud computing, AWS architecture, and hands-on DevOps practices.

CMPICA Media Crew Head — CMPICA, CHARUSAT *Aug 2025 – Present*

- Lead a 16-member student media team, running it like a software project with structured processes.
- Designed and built a structured MS Teams data pipeline, replacing scattered file-sharing with one organized, repeatable workflow for the crew.
- Managing the full media rollout for Ignite 2026, coordinating people, deadlines, and deliverables.
- Authored the official SOP to standardize crew operations to a professional-grade level.

Media Production Crew — CMPICA, CHARUSAT *Aug 2024 – Aug 2025*

- Captured photography/video for major college events and produced Reels that boosted student engagement.
- Designed posters and digital assets for event announcements, maintaining a consistent visual identity.

PROJECTS

THREATMESH — AI Threat-Intelligence Platform (Team Lead) *BOB AI Hackathon by IBM*

- Led a team building an AI platform that correlates multi-source security alerts into explainable attack narratives, maps evidence to MITRE ATT&CK, and includes a counterfactual analysis engine. Stack: Python, FastAPI, Next.js, React, PostgreSQL, IBM Bob, watsonx.ai.

PharmaTrack — Pharmacy Stock & Reminder System *github.com/typicallyajay/PharmaTrackK*

- Full-stack PHP/MySQL app to search medicine stock across pharmacies and rank nearby alternatives by real distance (Haversine formula); implemented role-based access, bcrypt hashing, and PDO prepared statements.

Clean Campus Connect — Gamified Campus Cleanliness App*github.com/typicallyajay/Clean-Campus-Connect*

- "Snap & Report" litter-reporting platform (HTML, CSS, JS) with Green Points and a competitive leaderboard.
